

## **Historical Real Estate Transaction Data Files**

### **Custom Reports & Services**

MMTinfo can provide current Historical Real Estate Data File information in ASCII file formats (data files only - no software) for specific customer use.

This information is most frequently provided to other organizations which integrate the data into another software package/product or use for research and analysis purposes.

As an example...This type of information has been provided to Association of Realtor organization for inclusion in Multiple Listing Service (MLS) products/programs. This type of data has also been provided to government agencies for research purposes.

These data files can be ordered and purchased on a case by case basis.

Contact us by phone (850) 474-1398 to find out more or to order the Historical Real Estate Transaction Data Files.
